

## Indiana’s Formative Benchmark Assessment Solution Checklist

...a way to review your options

Provides IAS aligned benchmarks on a technology platform already widely used in <i>our</i> state	✓		
Is an Indiana-based company with Indiana educator staff who understand our state and <i>your</i> needs	✓		
Provides 200+ formative assessments, including benchmarks, that can easily be aligned to <i>your</i> corporation’s curriculum	✓		
Prepares students and teachers for high-stakes testing with included ISTEP+ blueprint-aligned end-of-year assessments	✓		
Allows for individualized instruction through <i>detailed</i> distractor rationales and rubrics	✓		
Reduces resource dependence by arming teachers with data for quick, targeted intervention and re-teaching	✓		
Arms teachers with easy-to-use, mini cluster-based assessments for classroom use at no additional cost (e.g., checkpoints)	✓		
Provides a 360 degree view of your students, including benchmarks, ISTEP+, attendance, behavior, reading and other data and information important for student achievement to allow for a clearer picture of the whole child	✓		
Provides additional assessments and assessment opportunities, beyond benchmarks, for both curriculum and instruction adjustments and evaluation of best practices	✓		
Provides valid and reliable assessments and data through proven psychometrics and rigorous item development	✓		
Includes a robust, high-rigor IAS aligned item bank with 34,000+ items for your educators to create additional customized assessments, both classroom and benchmarks	✓		
Includes technology-enhanced items to assess college and career expectations and to familiarize students with all item types used on ISTEP+	✓		
Includes benchmarks in Spanish to support Indiana’s Dual Language and Immersion programs	✓		
Goes beyond technical training by including high-quality professional development on how to effectively use data to drive instruction (by former Indiana educators)	✓		
Includes regional network meetings for sharing of best practices	✓		
Includes all future enhancements at no additional charge, including hundreds of new technology-enhanced items added monthly	✓		
Includes a universal reading screener and detailed diagnostic assessment through RAPS 360 by MindPlay for grades K-12	✓		
Provides reading levels based on Flesch-Kincaid and Lexile to track students’ readiness for reading in college and careers	✓		
Allows for progress monitoring, growth measures, and program evaluation	✓		

Five-Star Technology Solutions has been providing Pivot and other services to Indiana educators for over 10 years. Pivot software modules work independently or in concert to help you not only assess students but make student data actionable with a variety of search, reporting, and dashboard functionalities.

Pivot includes INSPECT®—a proven item bank and suite of pre-built benchmark assessments to meet all of your assessment needs. INSPECT® gives educators the unique combination of rigor, innovation, integrity, and instructional guidance with reliable benchmark and classroom assessments that are easy to implement and use.

With Pivot INSPECT®, Indiana educators have the tools they need to shape instruction for every student.
